

..... BREAK THROUGH TECHNOLOGY!

GT200W PROFESSIONAL WELDER / GENERATOR

with electric start

The 18L fuel tank and the industrial quality of the GT200W can keep you welding and generating power all day.

AT 420cc and all the unique GT POWER features like industrial air cleaner & muffler system, superior quality alternator, automatic voltage regulator (AVR) and low oil alert with automatic engine shutdown, the GT200W empowers you to tackle the toughest of tasks! Featuring electric start with recoil back-up, this machine is a workhorse you can depend on.

- 200A Welder, 5500W Generator
- Dual welding/generating function
- 1 x 32A 230V Monster single phase outlet with adapter cord
- Standard "Tex" welding connectors
- Will run 1.6 - 5.0mm electrodes
- Run power equipment up to 5500W - including a 9" angle grinder!
- Robust and portable
- Fully-welded tube frame & wheel kit
- Comes with electrode holder and earth clamp.

Single Phase - 230V

5500W

**...for safe powering of most construction site
handtools and household appliances**
