

GT8000ESi **ELECTRIC START** INVERTER GENERATOR **8000W**

With 8000W (max) power output and up-to 7hrs runtime the GT8000ESi is the ideal generator for home-backup, worksites or in emergencies where perfect power is essential. As an inverter it will safely run sensitive electronics such as laptops, household appliances and powertools – perfect in the even of power outage.

The optional ATS detects loss of mains power and automatically switches to generator power making this machine ideal to provide back-up power. With all the normal GT Power features, such as Powerdyne engine and super-duty copper-wound alternator this machine offers the ultimate in performance and reliability. Also featuring a silenced casing, smart throttle and eco- mode this machine is whisper quiet when in use.

Convenient handles for easy portability

Silenced casing

Industrial muffler system

26L Fuel tank

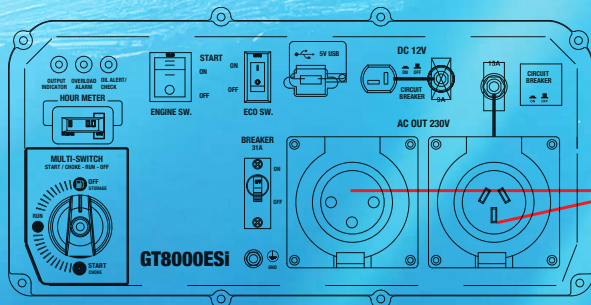

REMOTE START
